

MILESTONE ACHIEVED BY MAMBRUK & G.E.T.

September 18 – 2006 – Plantation Agreement with PERHUTANI

An Agreement was signed between PT.Mambruk Sarana Interbuana and PT.Perhutani to develop Jatropha plantations in several locations of West Java.

PT.Perhutani is a state owned Indonesian forestry company under the Ministry of Forestry. All forestry area on Java is under PT.Perhutani which includes ownership and responsibility to manage around 400.000 ha of unproductive forest land on Java and Madura.

Perhutani has been assigned by the Indonesian Government to convert Java's unproductive land into green energy producing areas. In Mambruk's agreement with Perhutani the parties plan to prepare 4,000 Ha of land in West Java for Jatropha farming before end of this year. Being a start-up this may be extended to cover far larger areas on Java island with both parties' agreement.

We congratulate our partners to this major step on the way to establish our first biodiesel plantation and biodiesel manufacturing venture! Please contact us for further development and investment opportunities.

PT.Mambruk Sarana Interbuana Indonesia and Green Energy Trading Pte Ltd Singapore are partners in project development and trade - devoted to promote renewable energy by various approach.
